

Clerks Report July 2020

Planning

Granted - 20/00416HOU Touche and Quilp - demolish existing garage and workshop and replace with new garage/workshop. We raised no objections but are quoted as 'Wootton Parish Council' in the officers report.

Notice Boards

The Perspex on the Elenors Grove board has been replaced. Island Roads did remark that it was lucky we commissioned the job when we did as Perspex has become like gold dust.

The Fishbourne Lane board seems to be holding the pins even in this extremely windy weather.

Website

I am hoping that before the meeting there will be a template to show you. I have been corresponding with the webmaster and the first draft was too close to the old site with too many clicks and very clunky. Therefore, I hope you don't mind that I took the decision to ask him to come up with another solution before it was discussed by the Council.

Meetings

The advice from NALC, not to hold meetings in person, remains current. However, if a meeting cannot be held by any other means than face to face, this can take place, as long as the appropriate risk assessments have been carried out.
