

Clerks Report June 2020

Updates from May meeting

Planning Enforcement complaint for Ashlake Copse Lane – the complaint has been lodged and acknowledged.

Fallen Tree and BT Line in Quarr Lane – This was reported and an engineer from Open Reach attended. He confirmed that the line was not damaged at the moment and it was left for him to report to his manager for further action. To date the tree and line remain in the same position.

Parking on the Lower Green

The revised cost is quoted at £1868.69. It is noted that improvement work and TROs are currently pushed back, due to the work required by Island Roads working on the Active Travel Plans for social distancing rules.

Bank

Success! The bank statements are now all being delivered to my address. However, the application for online banking is still in limbo, due to NatWest insistence that the information they hold for me and the Chairman does not match with the application details.

Meetings

The advice from NALC, not to hold meetings in person, remains current.
