

Chairmans Report – Fishbourne Parish Council 9th July 2020

Wightlink – Lorries refrigeration units – Following contact with Sainsbury regional director I e-mailed the main two residents who had copied me in and requested that they let me know of any further problems. So far I have had no communication so it appears that the current issue has been resolved. The Sainsburys Regional Director is willing to meet with us if there are any further issues.

Our MEP – I have been attending Zoom meetings with Bob Seely, although unfortunately I missed the meeting last night. I welcome this avenue of communication and hope that it will continue beyond the current epidemic.

Malcolm Hector

Chairman, Fishbourne Parish Council
