

Chairmans Report – Fishbourne Parish Council 10th September 2020

Wightlink – Traffic queuing on Fishbourne Lane – Sadly this summer has seen day after day of traffic queues waiting to access the ferry terminal. The delays are for a number of reasons but lack of sufficient staff seems the main issue which Wightlink could solve very quickly. I regret that despite many attempts at communication I have failed to get any replies from Wightlink and at somewhat of a loss to know the best way forward. A public meeting might be useful but cannot happen at the moment.

Lower Green – A parking nightmare this summer cars waiting for ferry passengers, holiday makers parking for several weeks, the turning circle blocked and its no ones fault. The Clerk is chasing Island Roads for the installation of the parking restriction which is essential if we are to get proper use of this area for local residents to park and enjoy the green and surrounding countryside.

New Councillors – I have met with two prospective Councillors and hope they are joining us tonight.

Malcolm Hector

Chairman, Fishbourne Parish Council
