

Clerks Report January 2021

A very quiet month, which is usual for December. All matters lodged following the last meeting have received an acknowledgement but nothing more.

Planning Applications

Refused

20/01929/FUL 6 Barge Lane – Retention of car port
The PC supported the comments made by Island Roads.

Bird Interpretation Board

Bird Aware Solent say they are almost ready to share the designers draft!

Turning Circle Sign

The turning circle signs are in place and we can only hope that they are acknowledged by people wanting to park in the area.

IWALC

The Clerks have been taken off the circulation list of IWALC so I get very limited info to pass on. We are directly subscribed to the NALC newsletter so I will pass on any info I receive from them.

I have asked for an update on the flail cutting complaint, that was going to be discussed at the IWALC/IWC meeting on 17th December, but have yet to receive a reply.
