

Clerks Report October 2021

Bird Interpretation Board

AJ Wells are hopeful for a completion date next week..... once I get a definite date I will instruct Brighstone Landscaping for installation.

Irresponsible Parking in Fishbourne Lane and Ranalagh Drive

Letters were sent to Certas Energy, DH Price Motors and Reynolds and Read regarding parking of tankers in Ranalagh Drive and using Fishbourne Lane as a marshalling yard. Positive responses with apologies have been received from Certas Energy and DH Price Motors, nothing as yet from Reynolds and Read. Interestingly, Certas Energy said the ferry terminal had suggested they park in the Drive, but they have now asked their drivers to find an alternative.

Ship Building Information Board on Lower Green

Thanks to Tony Hart I have a copy of the perspex information board. I have approached one supplier and he feels the post should be galvanised steel with a marine ply top due to the proposed location. I will need to get two other quotes once we are happy with the type of structure we require.
