

Diana has already reported back to councillors on the Environmental and Sustainability forum. The WCFA meeting is tomorrow, and I will report back afterwards.

Some residents would like to meet at the Garden of Remembrance, on the Oak Tree Green, on Sat 11<sup>th</sup> Nov, a little before 11am to hold a 2 min silence at 11am.

Could this be put on the website please in case anyone else would like to be there? I will go down . The RVYC will be closed for a little over two weeks in January, as it was last year. 1st Jan to 19<sup>th</sup> Jan. This allows decorating and maintenance work to be done.

This will affect the coffee morning and the monthly PC meeting.

I will ask Babs Wise if we can hold the coffee morning at her house in Jan 2024. I hope this is acceptable. I believe the PC met at the Wightlink meeting room in Jan this year. This may be an option again?

The tree we planted at Wightlink is apparently dead!

Sadly, I don't think anyone from Wightlink watered it, which Martin Gulliver promised they would. Residents have remarked that the position of the tree is good, so it is a pity to lose it. Do you think we should get a replacement asap, and we could get a rota of people to keep it going when the weather gets warmer and drier.? Now would be a good time to pop one in...perhaps better than the Spring.

I am happy to liaise with Martin and to purchase a tree, and plant it.

The river is once again in full flow outside our house.

There is obviously a problem further up the road. People are getting soaked as they walk along the carriageway.

I will attempt to report it tomorrow but would be grateful if Katie could also follow it up.

Sarah
