Summary Headers Plain text

Good afternoon,

I have spoken to Raf, he reckons in a day/day and half he could have it done. It would need rust repair and repainting but that shouldn't be too expensive. In terms of cost, as follows:

Labour - £175 - £200 (Day Rate)

Paint - £50

Total - £250

This is subject to change if the paint and rust repair comes in cheaper, we will only charge for the cost of materials as per our purchase cost.

Kind Regards,

Liam Pearce – Facilities Manager
